Performance by exam section

Each section, and its corresponding percentage of the exam, appears to the left of the chart. The length of the bars represents your section-level performance. Shorter bars reflect weaker performance, and longer bars reflect stronger performance.

Note: Because the number of questions in each section varies, the length of the bars cannot be used to calculate the number of questions answered correctly, and bars cannot be combined to determine percentage of questions answered correctly on the overall exam. If a bar is not displayed for a skill area, no questions were answered correctly in that section of the exam.

How Your Performance Compares to Those Who Have Taken this Exam

Content Area	Opportunity for Improvement	Comparable	Strength
Describe the Concepts of Security, Compliance, and Identity (10-15%)			✓
Describe the Capabilities of Microsoft Identity and Access Management Solutions (30-35%)		✓	
Describe the Capabilities of Microsoft Security Solutions		✓	

This exam was designed so that the total test score could be used to make a pass/fail decision. No decisions were made based on individual section-level performance. The exam was not designed with the intent to provide diagnostic feedback about your skills, and steps were not taken during the test development process to support that level of score reporting. Therefore, candidates should exercise caution when interpreting the section-level score information provided in this report and use it only as a starting point for future exam preparation.
